

## NBG Report for KCC Meeting 19 Apr 2017

Further progress! The new fibre cabinet at the Killlearn exchange is now live, accepting orders, and some residents have already got the service installed and working. Speeds are reported to be as expected at 30Mbps or more. So if you live in “The Trees”, nearby, or in the centre of the village, you should be able to get “super-fast broadband! About 50% of postcodes in the village are now connected to one of the fibre cabinets.

Status of your individual connectivity can be checked on either of the WhereandWhen pages of the BT Openreach or Digital Scotland websites or in the tables at the end of this report. This site is also showing a download of the exchange roll-out list, but as this is only at exchange level, it doesn't help very much.

NOTE: Remember the Digital Scotland “Better Broadband Scheme” provides a subsidy to establish a better connection using either satellite or wireless for those currently getting download speeds of less than 2Mbps. See the KCC website for specific links.

Balfroon has also got more cabinets with 85% of the village now showing as “Accepting Orders”. Strathblane/Blanefield is in a similar position with slightly over 85% of the village covered. Buchlyvie has nearly 90% showing as connected while Croftamie/Drymen is showing nearly 60% Accepting Orders.

All this does have to be qualified though as many premises are on long lines, and whilst they will see a significant benefit in speed (double or better), they will not achieve “super-fast” speeds.

Otherwise, as yet, there is no news of the R100 programme although we don't expect any update until the local elections have returned their councillors and normal council business resumes.

The latest status of cabinets in each of the villages is shown below:

- **Cabinet status summary:**

- Balfroon cabinets: another 3 cabinets appear to have gone live, with 85% of the village (by postcode) showing Accepting Orders for fibre (subject to distance). Majority of other premises showing as In Scope;
- Balmaha cabinets: some postcodes are now showing as In Scope ie more advanced than Exploring Solutions;
- Blanefield/Strathblane cabinets: the total number of cabinets showing has dropped but over 85% of the village (by postcode) is now showing Accepting Orders for fibre (subject to distance). Other cabinets have all consolidated from In Scope or Build to Field Survey;
- Buchlyvie cabinets: cabinet is now live and more premises have been connected;
- Croftamie/Drymen cabinets: now showing 2 cabinets live and certainly a lot of premises in Drymen are now connected, and 3 more due in 2017-8;
- Fintry cabinets: 2 cabinets are now being shown, E1 scheduled for Sept 2017 and E2 for March 2018. A fixed-wireless solution is also being investigated. 60% of postcodes are In Scope, others being Exploring Solutions;
- Killlearn cabinets: new cabinet beside exchange is now Live and connected to premises in “Trees” estate and other postcodes in centre of village;
- Milton of Buchanan – see Balmaha above;

See below for the latest detail cabinet information. Note that the reliability of dates shown is uncertain, as are the specific locations, which refer to the often large areas within a single rural postcode. Previous data has been supplemented this month with samples against the postcodes below using the BT Openreach WhereandWhen website:

### **Latest cabinet information:**

Please see June 2016 NGB report to KCC for maps of the areas below.

For more detail on Balfron, Blanefield/Strathblane, Drymen & Fintry postcodes please see further pages below.

**TAKE CARE** though to notice the distance shown, that is a direct distance (and not the actual cable-run distance) and if more than 1200m will not offer a better connection from fibre than currently.

**Balfron (Boquhan)** (440xxx) (7 cabinets) – P1 cabinet in Spinner St now live since 9 Aug 2016, plus another in Buchanan Court, P3 at G63 OLE now live in April 2017); 3 others have appeared due to be live shortly (E3, E7 & E11) although the locations for these is not visible)and 2 **not available** (P2 at G63 ORA or G63 ONF) & Exchange 6 at G63 0QU). Note that some premises at G63 0QU appear to be on the Buchlyvie exchange and are marked as In Scope rather than Exploring Solutions. Other properties along Fintry Road at G63 OLT (Ballikinrain) appear to be on the Balfron exchange and are marked as Accepting Orders rather than Exploring Solutions;

**Balmaha** (870xxx) – 10 cabinets all **not available** at G63 0JQ, G63 0AD, G63 0AQ, G63 0AH, G63 0AW (twice), G63 0AR (twice), G63 0JU, and G63 0AJ. These are now showing a mix of Exploring Solutions and In Scope;

**Blanefield/Strathblane** (770xxx) (5 cabinets – reduced from 8) – P1 cabinet (Netherblane) live; P2 cabinet at G63 9BQ now live (Jan 2017), P3 cabinet undergoing Field Survey (location unknown, live by Apr 2017), plus 1 **not available**;

**Buchlyvie** (850xxx) (1 cabinet) – P2 cabinet at FK8 3LP is live and services most of the village. Some more premises are now connected while other premises are still Exploring Solutions;

**Croftamie** (660xxx) (1 cabinet) – P2 cabinet (between village and A811 junction to Balloch) live since Dec 2015;

**Drymen** (660xxx) (5 cabinets) – P1 cabinet at G63 0BY Live, 3 cabinets P3, P4 & P5 at G63 0BD and G63 0HT allegedly undergoing Field Survey so In Scope or Exploring Solutions; 1 allegedly in Design (E10 locations unknown, live by March 2018);

**Fintry** (860xxx) (2 cabinets) – E1 cabinet in Field survey (location believed to be adjacent to the exchange, anticipated to be live by Sept 2017); another cabinet is also in Design expected to go live in March 2018). Away from the centre of the village other postcodes are shown as Exploring Solutions. **Note** that some premises at G63 0LL and G63 0LT appear to be on the Balfron exchange and are marked as Accepting Orders rather than Exploring Solutions;

**Killearn** (860xxx) (3 cabinets) – E1 and E3 have been live for some time; plus recent cabinet 1 at Exchange that is now Live; most other postcodes are In Scope with a few Exploring Solutions;

**Milton of Buchanan** – see Balmaha above;

Note: the stages in “the Fibre Journey” are:

Exploring Solutions, In scope, Design, Field Survey, Build, Connect, Activate, Accepting Orders.

The timescale for “the journey” is likely to be about 12-18 months.

Doug Ashworth

Chair, Killearn Broadband Group
