Trusted to serve Scotland

Balfron Bridge closure and diversion from 18th September for approx 3 months.

Key

-  Road closed
-  Diversion route
-  Local access only

Important information about work in your community.

Taking care of your water supply

We are replacing the bridge that was severely damaged in an accident.

What does this mean for you?

- There will be a road closure on a short section of the A81 at Balfron Station for the duration of the work. A diversion route via A811 will be in place during this time (as indicated on the map on the reverse of this card). Please follow all signs
 - All local access and access to the local businesses will be maintained as usual.
 - The work is to replace the bridge with carries the raw water supply aqueduct which supplies the Greater Glasgow area
 - Please let us know if you may need additional assistance during our work
 - Thank you for your patience and understanding while we carry out this essential work.
-

Project reference

502365

Our contractor George Leslie will be carrying out this work on our behalf.
