Stirling council have identified this junction as a collision cluster site. Following a review, the proposal is to install the following:

- Rumble strips on both A81 approaches to the junction.
- SLOW road markings adjacent to the existing advanced direction signs on the A81.
- All existing road markings refreshed throughout the junction.
- Advanced STOP warning signs on both C31 approaches to the junction.
- Junction marker bollards installed on all four corners of junction.

The work is to take place on the 2026/27 financial year

Following a resident’s formal request for a speed limit review through Boquhan, and the subsequent rejection of the review request, KCC have been asked to pick up on this.
